

Product data sheet

TS 4000 EFS

Overhead door closer with link arm for single leaf doors of up to 1400 mm leaf width with electric free swing function

Product features

Closing force with variable adjustment from EN1-6
Operating voltage 24 V DC
Can be used for right and left hand doors without conversion
Free swing function makes it possible to pass through the door with little physical force required
Free swing function once the door has been opened once to approx. 90°
Smoke switch control unit can be connected, whose signal makes the door close automatically in the event of a fire
Mechanical latching action which accelerates the door shortly before the closed position
Closing speed can be individually adjusted
Visual closing force display for easy control of the setting
All functions can be set from the front (except for latching action)

Application Areas

Right and left single-action doors
Single-action doors up to 1400 mm leaf width
Door leaf installation hinge side and transom installation opposite hinge side (different variants)
Hold-open systems with integrated hold-open device with free swing
Barrier-free access in accordance with DIN 18041
