

Product data sheet

MBZ 300 N10

Emergency power control unit for smoke and heat extraction system drives with a total current consumption of 10 A

Product features

- Modular design to allow flexible adaptation to project-specific requirements
- Convenient extension by clicking on other modules in a control unit
- Can be extended by alarm groups, ventilation groups and alarm lines as required
- Depiction of complex smoke and heat extraction scenarios
- Easy service and installation thanks to status display directly on the module
- Configuration software simplifies commissioning and configuration
- Wind direction dependent activation possible (natural smoke and heat extraction device)
- Safety and reliability confirmed by VdS recognition

Application Areas

- Connecting possibilities for small smoke and heat extraction solutions, including with complex requirements
- For smoke and heat extraction system drives with a total current consumption of 10 A
- Control of electromotive 24 V DC drives for smoke and heat extraction in the event of a fire
- Control of a controlled natural ventilation

Product Data Table

Product features	GEZE MBZ 300 N10
Dimensions	400 x 500 x 200 mm
