

Product data sheet

A7011-FA

Model with latch guide, switch contact (feedback) and mechanical unlocking lever (permanently unlocking).

Product features

- Standard market dimensions
- Switch contact (feedback) which is activated by the lock latch
- Unlocking lever can permanently unlock electric strike
- Lock latch guide for installation in doors with closed profile edge
- Adjustable radius latch by 4 mm
- Twin coil technology enables a larger operating voltage range
- Integrated bipolar EMC protective diode, which protects connected electronic components against reverse voltage
- Can be installed on left hand and right hand doors as well as vertically or horizontally

Application Areas

- Standard doors
- Connection to direct or alternating current

Product Data Table

Product features	Standard electric strike A7011-FA
Height	75 mm
Width	20.5 mm
Depth	28 mm
