

Product data sheet

myGEZE Visu *

Building management software for visualisation, operation, control and monitoring of connected GEZE product systems

AREAS OF APPLICATION

- Operation of a building management system for door, window and safety technology of GEZE product systems and competitors
- Visualisation, operation and monitoring of connected GEZE products
- Use of standardised workflows to release incidents
- Alarm concepts for forwarding incidents in modern facility management systems

PRODUCT DESCRIPTION

myGEZE Visu is a visualisation system for myGEZE Control, to allow data and information from the entire GEZE product portfolio to be used for building operation. It is a building management software for operation, monitoring and visualisation of networked door, window and safety systems.

PRODUCT FEATURES

- Visualisation system with modular and flexible authorisation concept
- Graphic visualisation, operation, and monitoring of connected GEZE product systems
- Location option for devices on a customer-specific building plan
- Pre-defined, adaptable alarm concept for multi-stage processing of alarms, faults and messages
- Application for using e-mail notification service
- Multi-station capable operating system
- Activation of further functions via license model
- Simple and intuitive interface set-up and configuration
- Optimised for connection to myGEZE Control systems
- Parallel operation with any building management system possible

TECHNICAL DATA

Productname	myGEZE Visu *
-------------	---------------

NETWORKING

VARIANTS / ORDER INFO

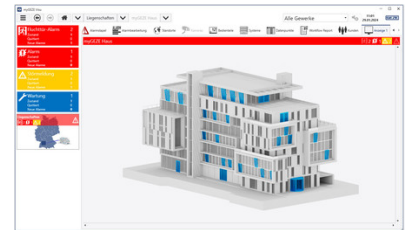

Designation	Description	Ident-No.
myGEZE Visu *	Visualisation system for building management	210248

PART

MYGEZE VISU BASIC HARDWARE PACKAGE *

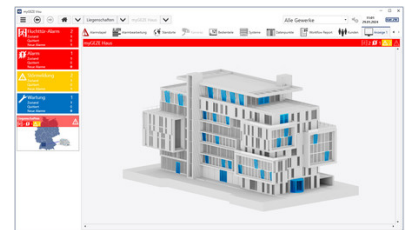

Building management system for visualisation, operation, control and monitoring of connected GEZE product systems

Designation	Ident-No.
myGEZE Visu basic hardware package *	204007

MYGEZE VISU LICENSE EXTENSIONS *

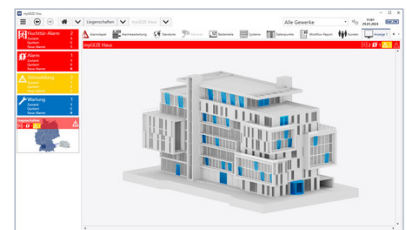

License for the basic packages to connect additional product systems

Designation	Ident-No.
myGEZE Control LICENSE 5 DEVICES (204009) *	204009
myGEZE Control LICENSE 10 DEVICES (204010) *	204010
myGEZE Control LICENSE 25 DEVICES (204011) *	204011
myGEZE Control LICENSE 50 DEVICES (204012) *	204012
myGEZE Control LICENSE UNLIMITED (204013) *	204013

MYGEZE VISU BASIC SOFTWARE PACKAGE *

Building management system for visualisation, operation, control and monitoring of connected GEZE product systems

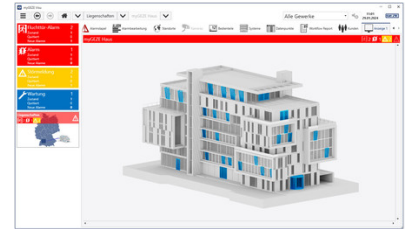

Designation	Ident-No.
myGEZE Visu basic software package *	204008

MYGEZE VISU ADDITIONAL OPERATING STATION *

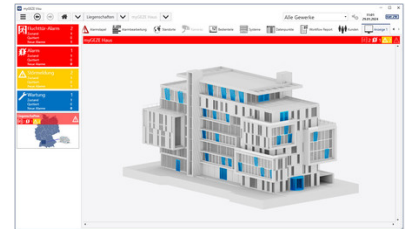

License for the basic packages to use an additional operating station

Designation	Ident-No.
myGEZE Visu additional operating station *	204014

MYGEZE VISU FIVE ADDITIONAL OPERATING STATIONS *

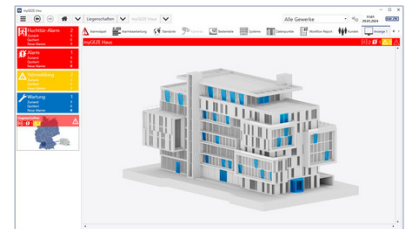

License for the basic packages to use five additional operating stations

Designation	Ident-No.
myGEZE Visu five additional operating stations *	204015

MYGEZE VISU EXTENSION FOR CLIENT MANAGEMENT *

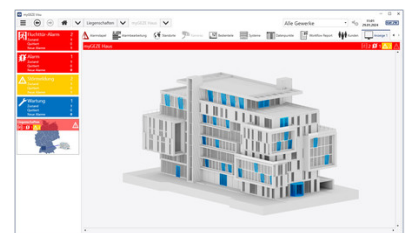

License for the basic packages to expand user administration with a client function

Designation	Ident-No.
myGEZE Visu extension for client management *	204016

MYGEZE VISU CONNECTION OF MULTI-MONITOR SYSTEMS *

License for the basic packages for use on multi-monitor systems

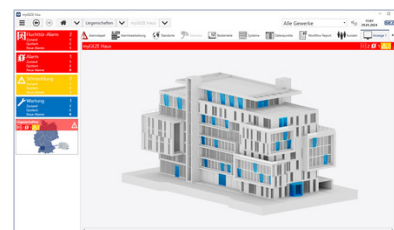

Designation	Ident-No.
myGEZE Visu connection of multi-monitor systems *	204017

MYGEZE VISU VIDEO SYSTEM INTEGRATION *

License for the basic packages for using video integrations

Designation	Ident-No.
myGEZE Visu video system integration *	208253

* The products designated above may vary in form, type, characteristics, function, or availability depending on the country. Please get in touch with your GEZE contact person if you have any questions.
